I worked 3 days in the office before deployed to Hurricane Harvey. I am on complex schedule 9 hours and I was told I could not change it to 8 hours. My time card and earning statement overtime are not the same. My earning statement indicates 21 hours at \$56.96 and 12 hours at \$37.78 for pay period 20. Total overtime hours worked is 69 including weekends for the pay period.

I just need some explanation.

Thanks

Philip
